## SKILLS

### Commitment:

I work with dedication, perseverance and discipline, attitude required for any type of enterprise.

### Teamwork:

I easily integrate the work teams which is essential to manage projects, obtain and process the requirements of the Company and the Client.

### Orientation to results:

I attach great importance to the fulfillment of the scheduled dates necessary to meet the goals and achieve the delivery of projects in the scheduled times.

### Flexibility and management changes:

I adapt easily to the new requirements of the organization.

### Efficacy in the resolution of problems:

As a specialist in the area of usability, I consider effectiveness as one of the fundamental elements for optimum resolution of problems.

## MY OBJECTIVE

I'm professional oriented to the implementation of strategies and adequate tools to achieve the objectives in the planned times applying my knowledge in all areas of Design and Technology, focused on crafting or improving the User Experience, to face the challenges that arise and give solutions to problems. Guarantor of order and planning, structured work, creative and observer, I have the ability to simplify complex problems and transmit the correct information to my work environment.
